

**Office of the Commissioner for
Federal Judicial Affairs Canada**

**Quarterly Financial Report
for the quarter ended
June 30, 2023**

Statement outlining results, risks, and significant changes in operations, personnel, and program

1. Introduction

This Quarterly Financial Report (QFR) has been prepared by management as required by section 65.1 of the *Financial Administration Act* and in the form and manner prescribed by the Treasury Board of Canada Secretariat. This QFR should be read in conjunction with the Main Estimates and Supplementary Estimates. It has not been subject to an external audit or review.

1.1 Mandate

The Office of the Commissioner for Federal Judicial Affairs (FJA) Canada was created in 1978 under the authority of the *Judges Act* to safeguard the independence of the judiciary and in order to put federally appointed judges at arm's length from the administration of the Department of Justice. FJA's mandate extends to promoting better administration of justice and providing support for the federal judiciary.

FJA administers three distinct and separate components that are funded from different sources. Statutory funding is allocated for the judges' salaries, allowances and annuities, and surviving beneficiaries' benefits. Voted appropriations are provided in two separate votes to support the administrative activities of FJA and the Canadian Judicial Council (CJC).

Under the Departmental Results Framework, the organization's core responsibility is to provide support to federally appointed judges. In addition to Internal Services, the organization is broken down into three program activities: payments pursuant to the *Judges Act*, FJA, and CJC.

Further details about FJA's authority, mandate, and programs can be found below and in FJA's Departmental Plan (DP), Main Estimates and Supplementary Estimates located on FJA's and the Treasury Board's websites at www.fja-cmf.gc.ca and www.tbs-sct.gc.ca.

1.2 Basis of Presentation

This quarterly report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes FJA's spending authorities granted by Parliament and those used by the department consistent with the Main Estimates for the 2023-2024 fiscal year. This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before money can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

When Parliament is dissolved for the purposes of a general election, section 30 of the *Financial Administration Act* authorizes the Governor General, under certain conditions, to issue a special warrant authorizing the Government to withdraw funds from the Consolidated Revenue Fund. A special warrant is deemed to be an appropriation for the fiscal year in which it is issued.

FJA uses the full accrual method of accounting to prepare and present its annual departmental financial statements that are part of the departmental results reporting process. However, the spending authorities voted by Parliament remain on an expenditure basis.

2. Highlights of fiscal quarter and fiscal year to date (YTD) results

FJA is financed by the Government through Parliamentary Appropriations (e.g. Statutory Votes for payments pursuant to the *Judges Act* and Employee Benefits Plans (EBP) and Budgetary Votes to support the administration of FJA and CJC).

Vote-netting is a means of funding selected programs or activities wherein Parliament authorizes FJA to apply revenues collected towards costs directly incurred for specific activities. FJA has the authority to spend revenues received during the year arising from the provision of administrative services.

Changes to Departmental Authorities

As at June 30, 2023, the total authorities available to FJA are \$25.9 million higher compared with the same quarter last fiscal year. This net increase is comprised of:

- An increase of \$25.3 million in statutory authorities for judges' salaries, allowances and annuities, as well as for contributions to employee benefit plans.
- An increase of \$0.6 million in voted authorities for the department's operating budget.

Changes to Budgetary Expenditures

As at June 30, 2023, the department's total net budgetary expenditures increased by \$11.3 million compared with the same quarter last fiscal year. This variance is comprised of:

- A year-to date net increase of \$7.3 million in personnel expenditures (including EBP and judges’ salaries, allowances, annuities, and surviving beneficiaries’ benefits issued pursuant to the *Judges Act*).
- A year-to date net increase of \$1.7 million in transportation and telecommunications expenditures.
- A year-to date net increase of \$1.1 million in professional services expenditures.
- A year-to date net increase of \$1.1 million in other subsidies and payments expenditures.
- An overall net increase of \$0.1 million for all other non-salary expenditures.

Figure 1: Comparison of Authorities Granted and Used

The chart illustrates the variation in thousands of dollars of the annual budgetary authorities granted and used as at June 30, 2022 and 2023.

As at June 30, 2022 and 2023, FJA planned to spend \$706,954,715 in 2022-23 and \$732,863,219 in 2023-24. Authorities used as at the first quarter totalled \$168,236,260 in 2022-23 and \$179,584,742 in 2023-24.

3. Risks and Uncertainties

FJA's environment is complex due to the range of services it provides and the large number of clients served. Recognizing this context, FJA has developed a risk profile and actively monitors internal and external risks through its management team. Concise information about significant financial risks and uncertainties, the potential impact to FJA's 2023-24 financial plan and the strategies adopted to manage these financial risks and uncertainties are briefly outlined below. Further detail about FJA's internal and external risks can be found in FJA's 2023-24 DP.

This QFR reflects the results of the current fiscal period in relation to the authorities available as at June 30, 2023.

FJA continues agile management of its resources to shift and reallocate resources to adapt to emerging needs as required.

4. Significant changes in relation to operations, personnel and programs

As at June 30, 2023, the significant increase in expenses related to transportation and professional services compared with the same quarter last fiscal year are primarily attributable to the end of the pandemic restrictions, which was resulted in an increase to the number of court-related travel and conferences attended by judges.

5. Approval by Senior Officials
